

EUREKA ASSEMBLY CENTER

One team - taking on the challenges
succeeding together

Keep going. Keep safe.

EUREKA

FACILITY DESCRIPTION

The Centre:

We are proud to present our assembly and test facility for pumps and generators.

The center is located in Sørumsand northeast of Oslo.

Accessibility:

- Good access to road and rail-road
- Close distance to Oslo deep-water port (40 km) and OSL Gardermoen airport (33 km)
- Directly accessible with trucks for large & heavy equipment

Quality:

Certification:

- NS-EN ISO 9001
- NS-EN ISO 14001

Mechanical Completion Management:

Eureka use PIMS (CMS) Completion Management System. PIMS is a proven project management tool for the energy sector.

Eureka-PIMS ensures:

- Efficient overall execution of mechanical completion, preservation and commissioning.
- Full status overview of all project files, documents, punch Items and checklists at any level.
- Generates detailed status reports sorted by tags, sub-system, completion events, checklists or punch items at any level.

Facilities:

- All areas are flexible and adaptable to meet a variety of requirements.
- Pump and diesel generator test facilities are indoor to ensure controlled and stable test conditions all year round.
- Conference rooms with full HD video conference capability.
- Fully equipped machining and welding facilities.

CAPABILITIES

Facility Area:

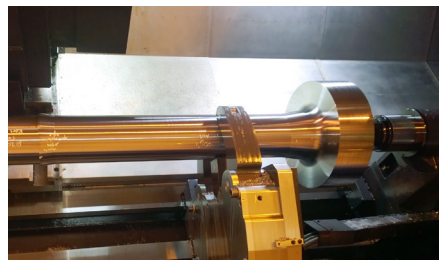

- Assembly: 8 600 m²
- Stores: 1 000 m²
- Test: 1 000 m²

Cranes & Lifting Capacities:

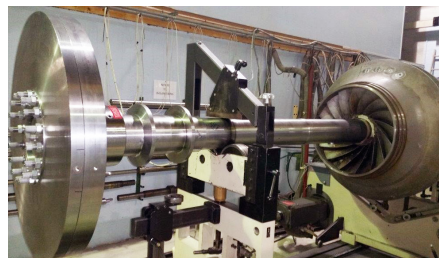

- Full Overhead Crane coverage with lifting capacities from 2 to 150 tons.
- 7 Swivel Cranes with lifting capacity up to 3 tons.

Main Machining Equipment:

Lathe.

Balancing machine.

In-door Testing Capabilities:

Pumps:

- Designed for full scale testing of almost any size, capacity, effect and type of pump.
- Dry mounted pumps.
- Line shaft pumps and electric submersible pumps in lengths up to 60 meters.

Diesel Generators

- Load testing against load-bank
- Load testing against pump
- Pump testing against Generator set.

EUREKA PUMPS AS is a Norwegian pump supplier with more than 40 years of experience in the oil & gas and marine industry, offering a range of pumps and generator sets that covers a majority of applications. EUREKA PUMPS also offers services for upgrading, modification, equipment testing, installation and commissioning.

EUREKA PUMPS is a market leader among companies operating on the Norwegian Continental shelf, and it is also present in International markets with selected applications, based on own technology. EUREKA PUMPS main office is in Oslo (Fornebu), Norway, and has advanced service facilities along the Norwegian coast. EUREKA PUMPS also has branch offices in Houston, St. Johns and Kuala Lumpur.

EUREKA PUMPS is one of three companies in the ALIGN group, a leading supplier of production equipment and safety critical products and solutions. ALIGN offers services ensuring continuous production, a perspective that safeguards optimal operations and lower life-cycle costs. The ALIGN group is owned by Convento Capital and HitecVision.
